

## BiVOC2 can be personalized

When the BiVOC2 is switched on a screen containing the serial number and manufacturer information is shown for 4 seconds.

The 3rd and 4th row containing the manufacturer information can be changed by us for personalization according to your wishes before shipping. A pump showing your name, your company name, your web address or the like certainly also has an effect regarding anti-theft protection and product value. In case of disposal of the pump the text in these lines can be changed by us again.

If you want to use this free service, please fill out the two lines of 20 characters each. Common special characters like "@" or "" are possible. You can do this using Acrobat Reader to save the filled form and send it back to us via e-mail. Please take care of the formatting yourself since we transfer the text as specified.

Please fill in your name and your phone number to avoid a mistake
